## COLORADO

Go there for your summer trip.

Before selecting the place for your summer vacation you ought to send for a copy of our "Handbook of Colorado." This handy little book does not attempt a description of the wonderful scenery and climate, but it does give definite information in regard to the resorts, hotels, boarding houses and ranches in Colorado.

It tells where they are located, how they are reached, what the principal attractions are, the cost of board by the week and the month, the names and addresses of the proprietors. At many of them capital fare and excellent quarters can be secured at from \$8 to \$10 per week and upward.

People of moderate means can well afford to spend the summer in Colorado, as the Burlington Route will sell tickets throughout the season at about half the regular rates—on certain days even less than half. Delightful side-trips can be made from Colorado to the Black Hills and to Yellowstone Park at little cost.

## GRAVE IS LOCATED

Burial Place of Black Hawk Found by Iowa State Historian.

ON SITE OF ABANDONED TOWN  
Movement Now on Foot to Mark Grave With a Monument.

State Historian Charles Aldrich, of Iowa, claims to have located the grave of Black Hawk, the famous Indian chief, near Eldon, in that state, on the site of the old deserted town of Iowaville.

He recently returned to Des Moines from an interesting trip through Van Buren and parts of Lee and Henry counties. These counties are probably the richest of all the 99 counties in Iowa in historical lore, and in the course of his visit, Mr. Aldrich with Judge George C. Duffield and E. R. Harlan, of Keosauqua, located the exact site of the now forgotten town of Iowaville on the Des Moines and within a few miles of Eldon.

"I first went to Stockport," said Mr. Aldrich in talking of his trip, "on the invitation of E. R. Harlan, a young attorney of the distinguished pioneer, George C. Duffield, a close friend of Judge Wright and other prominent men of southeastern Iowa. From there we went six or seven miles east to the house of William Savage, a farmer, who makes a specialty of painting birds in water colors. He had a remarkable collection of 300 to 400 Iowa birds that seemed to me to be as good as those of John James Audubon. Savage is 60 years old and knows as much of woodcraft as Thoreau or John Burroughs. His collection is one the state certainly ought to own."

Found Man Who Knew Chief  
Mr. Aldrich told of visiting Croton, on the Des Moines river, on the border between Iowa and Missouri, and described scenes of the region of the famous battle of Athens. From there Keosauqua was visited. Mr. Aldrich says this locality abounds in interesting characters. He stayed one night at the home of George C. Duffield, one of the builders of the Iowa Agricultural society, and a pioneer who knew Black Hawk and Keokuk well.

Following this, Mr. Aldrich and Messrs. Duffield and Harlan started for Eldon and passed the old site of the decayed town of Iowaville and hunted up Black Hawk's grave. "We men a young man who has an interest in the real estate," said Mr. Aldrich, "and he knew within an acre or two where the chief's grave was located. We went to the place and hunted about for a time, and finally found a pile of stones that unquestionably marks the spot of the burial. Relic hunters have carried away nearly everything. There ought to be a permanent monument erected by the state on this site, and Mr. Harlan is undertaking a movement to have this done. The site is just off the upper end of the old town of Iowaville, and about two and a half miles from Eldon."

**PEOPLE WE KNOW**  
They are Rock Island People And What They Say is of Local Interest.  
When an incident like the following occurs right here at home it is bound to carry weight with our readers. So many strange occurrences go the rounds of the press, are published as facts, and people become skeptical. On one subject skepticism is rapidly disappearing. This is due to the actual experience of our citizens and their public utterances regarding them. The doubter must doubt no more in the face of such evidence as this. The public statement of a reputable citizen living right here at home, one whom you can see every day, leaves no ground for the skeptical to stand on.

F. J. Willis, of 1511 Seventh avenue, carpenter, says: "I was so sore and lame across my back that I could not stoop over far enough to tie my shoes. When I was obliged to pick up anything from the floor I had to get down on my knees to avoid sharp, shooting pains through my kidneys. There was a dull, heavy pain in my back and also weakness of the kidneys which was very annoying. I used many remedies, but I got little or no benefit until I tried Doan's Kidney Pills, obtaining them at the Harper House drug store. They effected a complete and permanent cure."

## EXPLOSION OF GAS IN A FURNACE SCORCHES TWO

Hermann Tonn and Robert Brown, two employees of the Rock Island Wood works, were somewhat burned about the face and upper part of the body yesterday at noon while they were sitting near the furnace doors at the plant on Eleventh street. An accumulation of gas in the furnace immediately after it had been fired up blew open the doors and the flames for an instant enveloped the two men. Both required medical attention, after which they were taken to their homes in South Rock Island. The burns are not considered serious in either case.

## CAPT. RITCHIE ON HAND TO SUCCEED MAJ. WILLARD

Capt. Ritchie, who has been appointed to succeed Maj. Willard as engineer in charge of the Hennepin canal and the Illinois river, has arrived at Sterling, where his headquarters will be. Capt. Ritchie comes from Galveston, Texas, and Maj. Willard will be transferred to Los Angeles, Cal., where he will have charge of the harbor work. The new head of the department of the Illinois river is a young man, 33 years of age. He will spend the next few days in familiarizing himself with the work he is to take up.

## Cured of Chronic Diarrhoea After Ten Years of Suffering.

"I wish to say a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mrs. Mattie Burge, of Martinsville, Va. "I suffered from chronic diarrhoea for 10 years and during that time tried various medicines without obtaining any permanent relief. Last summer one of my children was taken with cholera morbus, and I procured a bottle of this remedy. Only two doses were required to give her entire relief. I then decided to try the medicine myself, and I did not use all of one bottle before I was well, and I have never since been troubled with that complaint. One cannot say too much in favor of that wonderful medicine."

## FIRMS ORGANIZE

Local Institutions are Given Incorporation Papers at Springfield.

## EXPANSION OF COTTON MILLS

Barstow Creamery Company Reduces Capitalization to Less Than Half.

Three firms connected locally were granted incorporation papers at the office of Secretary of State Rose at Springfield yesterday.

The Rock Island Cotton & Mattress company, capitalized at \$10,000, was formed, the incorporators being Thomas H. McNevin, William J. Conter and Fred Woltmann, the present owners of the Rock Island Cotton mills. The firm will manufacture and sell springs, mattresses, etc. The incorporation is effected preparatory to an enlargement of the firm upon its removal from the quarters in the old cracker factory on Third avenue to the building on First avenue recently occupied by the White Buggy company, which is to be remodeled for the company's accommodation.

The Barstow Creamery company, with headquarters at Moline reduced its capital stock from \$3,500 to \$1,375, the latter figure being considered sufficient for the company to conduct its business, which is located at Barstow.

**Smith Succeeds**  
The Electric Brick & Fuel company, of Aledo, was incorporated at \$100,000, the incorporators being Benjamin E. Townsend, John Keown and Charles W. Smith, the last named being the party who has in the past sought to interest tri-city investors in his plan for the manufacture of the equivalent of hard coal from soft coal. The company proposes to manufacture brick, tile, coal, electricity for lighting purposes, gas, etc.

## REAL SENSIBLE IDEA.

T. H. Thomas Calls Plan of Selling Mi-o-na the Flesh Forming Food the Only Fair One.

T. H. Thomas, the reliable druggist, has been in the drug business long enough to have his own opinion as to the best way of selling medicines. He says the plan adopted for Mi-o-na, the wonderful flesh-forming food and cure for dyspepsia, is the fairest he has ever heard of.

He does not believe that a medicine ought to be paid for unless it does the user some good, and Mi-o-na is sold under a positive guarantee to refund the money unless it builds up good, solid flesh and cures dyspepsia and all stomach troubles. Mi-o-na is not simply a food digester; it tingles with the food and helps it to assimilate, so as to nourish and build up good, healthy flesh. It strengthens the digestive organs and puts them in normal condition and gives ruddy, glowing, vigorous health.

A change for the better in the general health will be seen from the first few doses of Mi-o-na and an increase of weight will be noticed after it has been used for a week or 10 days.

Those who take these health-giving tablets will soon have the power to eat anything at any time and suffer no distress afterwards.

Mi-o-na is the only preparation of the kind upon the market, that is sold under a signed guarantee from one of the most reputable concerns in Rock Island, to refund the money if it does not give satisfaction. T. H. Thomas takes all the risk when Mi-o-na is used. This is the strongest testimony that can be offered to the real value of Mi-o-na.
